

**JAMES JOHNSON, P.E.**  
Consultant

## **EXPERIENCE**

Mr. Johnson was a former Public Works Director/City Engineer for a community with a population of 33,000 with responsibility for all aspects of the public works department including engineering, municipal facilities, water production and distribution, sanitary and storm sewers, streets and sidewalks, forestry, equipment, and transit. His responsibilities included preparing and managing a \$10 million operating budget and a \$16 million capital budget, preparing and implementing tri-annual manpower studies, providing staff support and technical guidance to the city's environmental and traffic commissions, and technical advisor for a regional stormwater management commission.

As Director for a consulting firm's water resources group, he was responsible for stormwater management and permitting, watershed and wetland studies, site design and drainage evaluation, lake baseline studies, hydraulic and hydrologic modeling, and dam inspection, evaluation, and rehabilitation.

He is also experienced in project design, and has acted as resident engineer on a wide variety of civil and municipal engineering projects.
